

Museo Nazionale del Cinema: Luis Bogino **Collection**

[>> View collection](#) The National Cinema Museum in Turin offers online a small number of films belonging to the “Fondo Bogino” preserved in its archive. These films were mostly shot between the late 1920s and the early 1950s, by the Turinese photographer and amateur filmmaker Luis Bogino (1892 – 1960). The selected footage portrays mainly the city of Turin (e.g. [Profili di Torino](#)) and his wife, Mrs. Bogino, strolling around or playing with their dog (e.g. [Scene di famiglia con cane](#)).
