

Feedback & Contact

Do you have a question on the portal or would like to give us some feedback? Get in touch with us here.

Please note: In order to get a high-resolution copy of a film, image or text document you have found through the European Film Gateway, please get in touch with the archive listed as "*Provider*" of that item in the search result. Each archive has its own licensing conditions and/or handling fees, which is why users requesting material need to get in touch with the respective archive directly for further information.
